Naturally Robust Support For Wound Protection

Made By Nature, Backed By Science

Vendaje AC® is a human connective tissue matrix comprised of dehydrated amniotic/chorionic tissue which is manufactured using our proprietary BioREtain process. This creates a dehydrated human amniotic/chorionic membrane (DHACM) allograft.

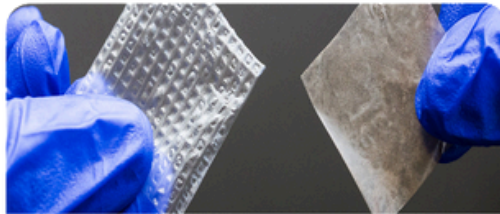

Clinically Advanced WHY SWIFT

Fewer Applications

Clinical study results showed that wounds treated with Vendaje AC placental membrane tissues required fewer applications than competitor membrane tissues.

Fewer Treatment Days

Clinical study results showed that wounds treated with Vendaje AC placental membrane tissues resulted in faster wound size reduction compared to wounds treated with competitor membrane tissues.

Easy to use, easy to store

Vendaje AC is a shelf stable tissue that can be stored at room temperature. It has a 5 year shelf life. It has no orientation issues and can be applied to the wound either side facing down.

BIORETAIN®

TECHNOLOGY

PROCESSING WITH THE HIGHEST INTEGRITY

Vendaje AC® is manufactured using the proprietary BioREtain process. The patented six-step BioREtain® process is gentle, minimally invasive, and preserves the natural integrity of the amniotic tissue/ components critical to the inherent wound healing process.

Why BioREtain?

1. Preserves Natural Structure

Maintains the membrane's integrity for preserving its natural healing properties.

2. Protects Growth Factors

Prevents tissue damage crucial for promoting effective healing and regeneration.

3. Ensures High Quality Product

Precision-cut for reliable performance and ease of use.

4. Safe and Clean

Sterilized without harmful by products or harsh chemicals.

VENDAJE AC allografts are available in a wide range of sizes and shapes for maximum versatility

VENDAJE AC®

Product Number	Dimensions	Size
300-004-0202-001	2x2	4
